**WELCOME**

## Welcome to UCAM, Universidad Católica San Antonio de Murcia!

Strategically located in Murcia, Spain, with a Campus of 15.700 students and around 1.000 professors, we are expanding worldwide to make one of our main objectives a reality: to promote a human and high quality university education, with representative presence in all continents. UCAM has a friendly and international environment in a wonderful Mediterranean framework.

This international vocation of Universidad Católica leads us to collaborations with universities from all corners of the planet in every educational level: research, students and professors exchange and the creation of international undergraduate and master's programs in all specialties.

At UCAM you will prove all the dynamism and enthusiasm of the university community, the top teaching technical equipment, the lovely surroundings of Jerónimos Monastery or a sports structure with 21 elite teams competing on top level.

The catholic and universal ethos of the Campus are great opportunities to find and understand the figure of Christ.

**Welcome to Spain, welcome to UCAM!**

# UCAM PROFILE

UCAM is a private Catholic University with 16 years of history and more than 15.700 students that offers 26 prominent European official graduations, 45 Master programs, 17 PhD programs and other prestigious titles.

Its teaching method is based on a personalized attention with reduced students per classes and a personal tutor for each student. UCAM also offers a modern system of distance teaching.

UCAM is located at the Jerónimos Monastery, where there are infrastructures and scientific-professional labs of the best qualities. Everything is for the benefit of the students, who are the core concern of UCAM.

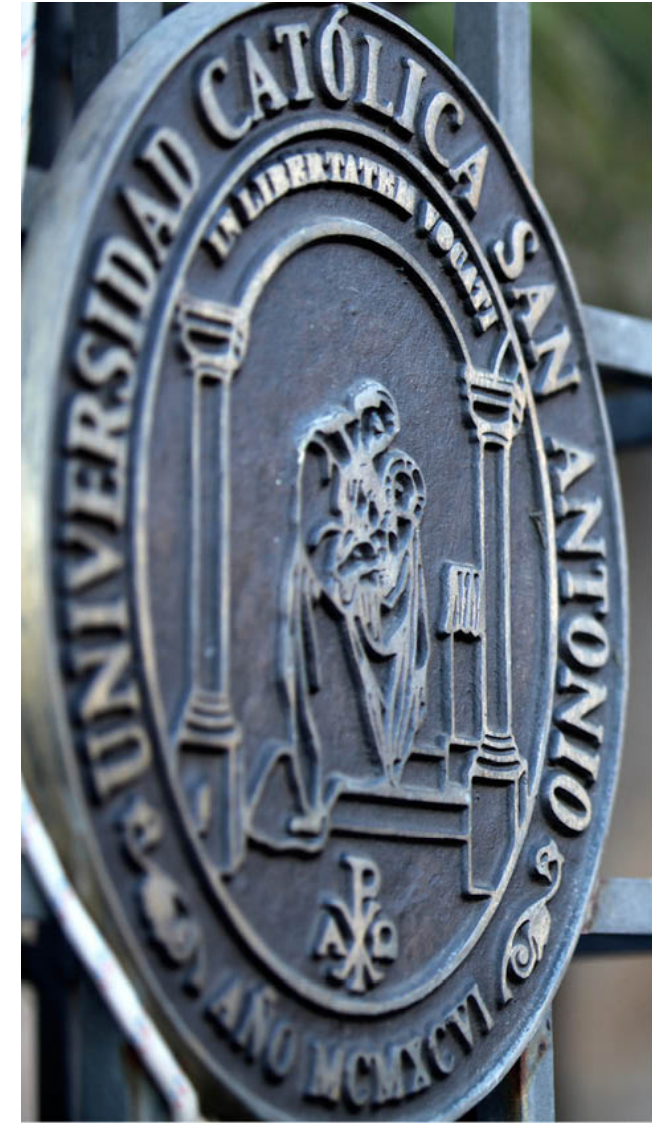

# UCAM PROFILE

At the international level, it has around 150 renowned strategic partners. UCAM is the first university with a campus in Cuba, where it has established two locations and recently opened an International MBA.

The infrastructure has a special focus on sports. UCAM sponsors and takes part on the directive board of 16 official teams. It is the only European university who has a professional Basketball team on the first national league (liga ACB España). It stands out in college sports, with more than 500 college athletes competing in 21 competitive disciplines.

UCAM is a Catholic University that loyals to its roots, is committed in being the front-line of the transmission of Faith through education and culture in the catholic values of “New Evangelization” suggested by John Paul II.

## STUDENTS

# CAMPUS AND LOCATION

Universidad Católica San Antonio de Murcia was established as an educative project focused on the active presence of students, professors and other members of the college community inside the Campus.

The Campus is located at the Jerónimos Monastery (XVIII century building) with an area of over 225.000 square meters, gardens, parking, sports facilities and university residence. Together with its baroque church, it is declared as a Historical-Artistic National Monument.

Inside the Campus you will find bright and wide classrooms, library, auditoriums, meeting and working office, computers, multimedia and language rooms, labs, television and radio studios, among many other infrastructures.

The Campus is 4 km away from the urban core of the city of Murcia, in a special environment that combines peace and tranquility with good connections. But UCAM doesn't end on the Campus borders. Just 5 minutes walking, you will find UCAM Sports Center, located in an outlet shopping center, La Noria. Apart from that, there is a supermarket just a few meters away from UCAM's gate.

# PERSON TO PERSON, FACE TO FACE

UCAM students can count on personalized attention that fits their needs.

UCAM staff values the personal relationships in the learning context and that is why each student is given a personal tutor and classes with a small number of students.

The variety of the academic programs on offer, constantly adapting to real needs of society and recognized by the European Higher Education Area, reflects this core guideline: each student is a reason for UCAM to continue its work of striving for perfection.

# LEARNING IN ACTION

Universidad Católica San Antonio de Murcia empowers students to develop their own real-world skills.

The campus' top class infrastructure, labs and studios allied with the practical subjects will get students ready to put the acquired knowledge into action.

Every student has to complete an internship in public or private institutions where they will have a taste of their future field of expertise. For the more academic profiles UCAM provides more than 50 research groups that work in close collaboration with enterprises such as Coca Cola, Danone, Santander, Repsol and Vodafone.

# MORE THAN KNOWLEDGE, VALUES

As a Catholic institution committed with the Church, UCAM does more than provide top quality education.

The transmission of values is a pillar of the university and is what make the difference in the future of our students: they will not only become great professionals but they will also develop a strong personal ethic and empathy. UCAM's formation is integral, comprehensive and provides opportunities for the human development through volunteering activities, congresses, seminars, research projects and religious services.

# RESEARCH AREAS

The university has almost 50 research groups of international prestige, which develop their research activities in the following areas of knowledge:

1. Nutrition and Food Science and Technology
2. Health Sciences
3. Physical Activity and Sport Sciences
4. Social and Communication Sciences
5. Polytechnic Sciences
6. Business and Legal Sciences

# R+D PROJECTS

UCAM researchers are currently implementing more than 100 research and development projects. These are some of the most remarkable ones:

- Demonstration of cyclodextrins techniques in treatment of waste water in textile industry to recover and reuse textile dyes (DYES4EVER).
- Beneficial effects of dietary bioactive peptides and polyphenols on cardiovascular risk (BACCHUSS).
- Industrial research about diets and foods with specific features for the elderly: bioavailability assessment of bioactive ingredients.
- Effects on performance, rigidity, kinetics and kinematics of both vertical and sprint jump by using different resisted loads.
- Study about the consumption of institutional advertising communication on the Internet, mobile devices and social media: types, characteristics of users and strategic management.
- Development of a methodology for the design of an urban network of cycle pathways, using TICs and geolocators.

# OPEN AND GLOBAL

With a strong international vocation, UCAM students have the opportunity to develop their global perspective.

Thanks to the joint programs, collaborations and exchange agreements with more than 160 universities all around the world, including UC Berkeley, National University of Singapore (NUS), Nanyang Technological University (NTU), Stanford, Università di Bologna, PUC - Rio Grande do Sul, Beijing Foreign Studies University and Wuhan University.

UCAM offices in Indonesia, Singapore, China, India, Romania, Russia, Uruguay and UAE work together with the university representatives worldwide to develop UCAM's international strategy.

# SPORTS

# THE UNIVERSITY OF SPORTS

Welcome to the University of Sports in Spain.

Following the Anglo-Saxon model, sport is part of UCAM's DNA, being hailed the Champion of Universities Competitions for the second consecutive year, with 76 medals (50 gold). Among UCAM top athletes there are Olympic medalists like Mireia Belmonte and David Cal and World Champions such as Melanie Costa. The 21 federated teams sponsored and managed by UCAM include UCAM Murcia CB, a professional basketball team competing in the ACB Liga Endesa. The sports facilities are lead by the UCAM Sports Center, a high tech gym accessible to both university and local communities.

# TOP ATHLETES

With over twenty Olympians in its ranks, UCAM, through the Spanish Olympic Committee, supports some of these prominent athletes.

The UCAM's patronage of these athletes goes beyond mere sports sponsorship. UCAM provides comprehensive support for these athletes so they can improve their athletic performance and at the same time get a university education, which will enable them to start working in another profession once their sports careers finally wind down.

# UCAM UNIVERSIDAD CATÓLICA DE MURCIA CB

UCAM Universidad Católica de Murcia CB team plays in the Liga Endesa (the first division of Spanish Basketball), which is considered the best basketball league in Europe and the second best in the world.

As part of its firm commitment to sport and education UCAM has added to its draft young players from the U.S. League (NCAA), some young promises of Spanish and European basketball and veterans like Berni Rodríguez (Endesa League winner and silver medallist in Beijing 2008).

This mixture of youth, experience and talent defines the long-term plan of UCAM for its basketball team. A plan based on nurturing and developing young players who go from high school to the university and once there, benefit from the balanced mix of top level sport and higher education.

# MURCIA AND SPAIN

# THE SPANISH ECONOMIC SECTOR

UCAM has a close contact with the economic sector of Spain and its major companies. The exciting business environment of the country is a place of challenges and opportunities for both students, professors and researchers from all over the world.

Although it is currently going through hard times, Spain has a competitive economy. Thanks to a healthy export sector, falling labour costs and tax consolidation it is expected to get back on track to achieve rapid growth and convergence with economies with higher per capita income. Spanish companies have internationalised intensely in recent decades in a process that has become the driver of economic growth. They are world leaders in key sectors such as renewable energies, infrastructure management, high-speed, railways, biotechnology, naval technology, environmental technology and air and space systems, among others. Nowadays you can find Spanish firms established and providing different services anywhere in the world. Many of the world's most important high-speed rail projects, infrastructure management and engineering works are carried out by Spanish enterprises. The world's best bank is Spanish, Spanish renewable energy companies are unquestioned world leaders. The list goes on and on. Spain's international record is an unprecedented success story.

# THE REGION OF MURCIA

Located in the southeastern part of Spain, the Region of Murcia is characterized by mild temperatures and long hours of sunlight.

Here, just like in a small continent with 2 million population, a variety of environments and landscapes can be found by the visitor, offer endless possibilities: beaches, rural areas, cities, traditions, folklore, culture, sports, “fiesta” and healthy life-style come together in a dynamic and active quality of life.

Two seas meet on one coast (the Mar Menor and the Mediterranean), impressive cliffs, heavenly secluded beaches of endless white sand, lively ports and wild coves with crystal clear water. This is the Costa Cálida. Historical cities such as Murcia as the capital of the Region, Cartagena which is an ancient Roman city and Caravaca de la Cruz as one of the main holy cities that holds a piece of the Holy Cross, invite their visitors for a long walks through the streets pedestrian, visit their magnificent churches and museums or just to enjoy the outdoor tapas.

In addition, a calendar full of festive popular manifestations of this land makes the perfect place to party, mingle with people and enjoy the culture of this cheerful, hospitable people.

# LIVING IN MURCIA

To attend UCAM's programs on-campus, students will have the opportunity to live in Spain and particularly in Murcia, where international students are especially welcomed.

Murcia is a synonym of warmth, sociability, dynamics and safety! The soul of Spanish culture is all around Murcia's city center where beautiful squares, historical buildings, museums and university campus. As capital city of the region, the services network supported by modern infrastructures makes life easier, safer and more comfortable: great transport network, hospitals, business areas, big shopping malls, sports facilities, among others.
